

Mwigulu briefs Parliament on developments in public procurement

DID YOU KNOW?

PPRA has established a Live Chat Service for TANePS users who seek help on the use of the system. They should visit www.ppra.go.tz or www.taneps.go.tz, click the sign which reads 'Need Help?' at the bottom right corner of the page.

NEWS IN NUMBERS

3,000,000

Fine in shillings, that an employer may be required to pay, for employing someone as a procurement and supplies practitioner, while they are not registered by the Procurement and Supplies Professionals and Technicians Board (PSPTB)

Minister for Finance and Planning, Dr. Mwigulu Nchemba

By Joseph Muhozi, Dodoma

THE Parliament has been told of various initiatives meant to improve performance of the public procurement sector including the Public Procurement Regulatory Authority (PPRA) plans to capacitate 1,200 bidders on the use of Tanzania e-Procurement System (TANePS) in the Financial Year 2022/2023, TPJ can report.

Speaking in Parliament when tabling the budget of the Ministry of Finance and Planning, the minister responsible, Dr. Mwigulu Nchemba, said the Authority would train the said number of bidders as well staff from procuring entities and would review a new system of public procurement.

"In the Financial Year 2022/2023, PPRA is expecting to train 1,200 bidders who have been registered with TANePS and 940 staff from 170 procuring entities," said Dr. Nchemba and added that the regulatory body would also conduct audit on contract implementation in 530 procuring entities which is a significant improvement on last year's figure of 105 entities.

Furthermore, the minister told the House that by April 2022, PPRA had provided training on TANePS to 736 staff from procuring entities, 530 procuring entities had been connected to the system, while 26,691 bidders had been registered with it.

In addition, Dr. Nchemba told the legislators that the Government Procurement Services Agency (GPSA) has established the GPSA Integrated

Management Information System (GIMIS), which has been in place since March of this year and has completed construction of two tanks each with capacity to carry 40,000 liters of oil in Tabora and Kagera regions, it is constructing others in Lindi, Geita and Morogoro regions as well as conducting maintenance of two oil tanks in Tanga and Mwanza.

Regarding the Public Procurement Appeals Authority (PPAA), Dr. Nchemba said that by April 2022, the Appeals Authority had received 30 complaints on procurement processes, 22 of which were heard and decided on as per the public procurement law, while four were still being heard and four were withdrawn.

Makala

Mambo ya kuzingatia katika kupanga ununuzi

Na Frank Yesaya, Mtaalam wa Ununuzi

Frank Yesaya

TAASISI nunuzi, kama mnunuzi yeyote, huweka vipaumbele vya kupata bidhaa, huduma na kazi za ujenzi zenye ubora, gharama nafuu na ndani ya muda. Ili kufikia vipaumbele hivyo, taasisi inapaswa kutengeneza mpangoununuzi wenye mahitaji, bajeti, njia za ununuzi, hatua za ununuzi na muda wa utekelezaji.

A. Kupanga ununuzi wakati wa kuandaa bajeti

Mchakato wa upangaji wa ununuzi unapaswa kwenda pamoja na uandaaji wa bajeti ya taasisi. Kila idaratumizi wanapaswa kuandaa jedwali la mahitaji kama sehemu ya mchakato wa bajeti na kuyawasilisha katika kitengo cha usimamizi wa ununuzi kwa ajili ya kutengeneza mpangomwaka wa ununuzi.

Kwa mantiki hiyo, taasisi inapaswa kuandaa mpangomwaka wa ununuzi. Aidha, mahitaji ya bidhaa, huduma na kazi za ujenzi yaliyotengewa bajeti, ndiyo pekee yanayopaswa kuingizwa kwenye mpangomwaka.

Mchakato wa bajeti unatarajiwa kutoa bajeti na mpangoununuzi wa mwaka, bajeti na mpangoununuzi, kwa pamoja vinatakiwa kuwasilishwa kwenye mamlaka ya kuidhinisha bajeti, ili vipate ridhaa kwa pamoja. Pale ambapo mamlaka husika itaboresha vipengele vya bajeti ambavyo pia vinaathiri mpangoununuzi, maboresho hayo yanaweza kufanyika kwenye bajeti na mpangoununuzi.

B. Sababu za kupanga ununuzi

Sheria ya ununuzi wa umma inazitaka taasisi kupanga ununuzi kwa kuandaa mpangoununuzi wa mwaka ili: - kuepuka ununuzi wa dharura pale inapowezekana; kukusanya kwa pamoja mahitaji ya ndani na nje ya taasisi ili kupata thamani ya fedha na kupunguza gharama za ununuzi; kuepuka kuwa na ununuzi mdogo mdogo wenye lengo la kutotumia njia sahihi za ununuzi; na ili kuhakikisha kuwa bajeti ya ununuzi inaoana na

bajeti ya matumizi.

C. Utangazaji wa mpangoununuzi

Mpangoununuzi wa mwaka unapaswa kuonesha: - zabuni zote za bidhaa, huduma na kazi za ujenzi zitakazochakatwa na taasisi nunuzi; bajeti ya kila zabuni; njia za ununuzi; na tarehe kwa kila hatua ya mchakato wa zabuni kuanzia kutangaza mpaka kusaini mkataba.

Kabla haujatangazwa, mpangoununuzi wa mwaka unatakiwa upate kibali cha mamlaka ya kuidhinisha bajeti ndani ya taasisi. Kwa kawaida, bodi ya zabuni hawapitishi mpangoununuzi wa mwaka, isipokuwa wao wana jukumu la kuridhia njia za utekelezaji zilizopendekezwa na kitengo cha ununuzi.

Mpango huo unapaswa kutangazwa kupitia TANePS. Kanuni zinaelekeza taasisi kutotangaza zabuni yoyote mpaka utakapopita angalau mwezi mmoja, ili kutoa fursa kwa wazabuni kuona na kujiandaa kwa fursa zilizotangazwa.

D. Kuhuisha mpangoununuzi

Mpangoununuzi wa mwaka unaweza kuboreshwa na taasisi pale wanapona kuna haja ya kufanya hivyo. Ingawa mpango wa awali uliidhinishwa na mamlaka husika, maboresho yake yanaweza kufanyika kupitia kibali cha afisa masuuli.

E. Kupanga ununuzi wakati wa utekelezaji wa mpango wa ununuzi

Wakati wa utekelezaji wa ununuzi, upangaji utahusisha uchaguzi wa nyaraka za zabuni, njia za ununuzi na mikataba. Kitengo cha ununuzi kinapaswa kupendekeza nyaraka na njia za ununuzi zitakazowezesha upatikanaji wa mahitaji ya idara tumizi; bodi ya zabuni ikiridhika na nyaraka na njia zilizopendekezwa, watatoa kibali ili zitumike. Uchaguzi wa nyaraka sahihi pia hufanikisha upatikanaji wa mikataba mizuri.

F. Namna ya kufanya makadirio ya mahitaji

Ili kuwa na makadirio sahihi ya mahitaji yanayojirudiarudia kama mafuta, karatasi, wino, vipuri vya magari na kadhalika, taasisi inapaswa kutumia mfumo wa kusimamia mali za taasisi, unaoweza kutoa makadirio sahihi.

Taasisi inapaswa kukadiria mahitaji yake ya ununuzi kwa kuzingatia bajeti na idadi za huduma au shughuli ambazo tayari zimepangwa kwenye mpangomkakati wa taasisi. Makadirio ya gharama za ununuzi yanapaswa kuzingatia bei ambazo ziko sokoni kwa wakati husika.

G. Ununuzi katika miradi

Aidha, katika ununuzi wa miradi, ni muhimu kuandaliwa kwa mpangokazi wa mradi na kuainisha rasilimali

zinazohitajika. Mipango ya ununuzi kwa ajili ya mradi inapaswa kuandaliwa mapema, tangu wakati wa kusanifu mradi.

Kwa kuzingatia namna ambavyo mradi utatekelezwa, ni vizuri uamuzi ufanyike ili kuona kama kuna faida za kiuchumi na za kiufundi, za kugawanya mahitaji ya mradi katika mafungu makubwa yanayofanana, ili kukuza ushindani.

Mahitaji yanayofanana na yanayohitajika katika hatua zaidi ya moja, yanaweza kutengewa fungu moja ili yanunuliwe kwa pamoja.

Kwa zabuni zilizowekwa kwenye mfumo wa mafungu, ni vizuri maelekezo kwa wazabuni yaeleze idadi ya chini au juu ya mafungu ambayo mzabuni mmoja anaweza kuomba na iwapo kila fungu lina mkataba unaojitegemea au vinginevyo.

H. Muda wa utekelezaji wa mkataba

Muda wa mkataba lazima uzingatie uhalisia wa mambo. Pale ambapo mazingira yanalizimisha mradi utekelezwe kwa kipindi kifupi kuliko uhalisia, ni muhimu wazabuni wafahamishwe mapema kupitia nyaraka za zabuni, ili wapange kumaliza kazi ndani ya muda mfupi.

I. Hitimisho

Kabla ya kuanza mchakato wa ununuzi, taasisi ihakikishe kuwa imetenga fedha za kugharamia zabuni na mkataba husika. Hata hivyo, kwa mahitaji yenye kujirudiarudia, taasisi inaruhusiwa kuanza mchakato wa ununuzi iwapo ina uhakika wa upatikanaji wa fedha katika bajeti yake.
