

## Gvt awards contract for country's first wastewater treatment plant

### DID YOU KNOW?

A procuring entity shall take a strategic decision whether or not the most economic and efficient procurement can best be achieved by separating contracts for each component.

Reservoir at a wastewater treatment plant (photo:flickr.com)

### NEWS IN NUMBERS

14

Number of days within which a procuring entity is required to submit its procurement plan to the Authority after completion of the budget process.

By Joseph Muhozi, Dodoma

The Government has awarded a contract for building and operating the country's first wastewater treatment plant (WWTP) in Dar es Salaam, TPJ can report.

The project, which will commence this month and is set for completion in October 2024, is under Dar es Salaam Water Supply and Sanitation

Authority (Dawasa) and will be implemented by Metito - a company based in the United Arab Emirates (UAE).

Dawasa's Acting Chief Executive Officer, Kiula Kingu told the press recently, that Metito has been contracted to design, to build and to operate the wastewater treatment plant, which will be located in Mbezi Beach in the city.

He said once completed,

the plant, which capacity to treat 16,000 cubic meters of wastewater per day, will use state of the art engineering and technologies to improve sludge quality and minimise the overall carbon footprint.

“Access to water and sanitation in Tanzania can transform the economic outlook in Dar es Salaam

## JE, WAJUA?

**Taasisi nunuzi inapaswa kufanya uamuzi wa kimkakati ambapo ununuzi bora na wenye tija unaweza kufanyika kwa kutenga mikataba kwa kila sehemu ya mradi.**

## TAARIFA KATIKA TARAKIMU

# 14

**Idadi ya siku ambazo taasisi nunuzi inapaswa kuwasilisha PPRA mpango wake wa ununuzi wa mwaka baada ya kukamilisha mchakato wa bajeti.**

This Journal is published by the Public Procurement Regulatory Authority (PPRA) every Tuesday, and can be downloaded from PPRA website [www.ppra.go.tz](http://www.ppra.go.tz)

## Gvt awards contract...

*Continued from Page 1*

and propel its social development sustainably, so we are confident that once the plant is operational, its impact will be of great value to the local community,” Kingu said, noting that it will safeguard its health and well-being by ensuring an effective wastewater treatment.

He also spoke highly about the technology which will be deployed at the plant, in particular its electric power consumption which, he said, is quite low.

In addition, Mr. Kingu said Tanzania is committed to increasing access to clean water by adopting the United Nation’s Sustainable Development Goal 6, which targets for clean water and sanitation for all by 2030.

The main objectives of wastewater treatment are reducing water pollution and making use of the waste resulting from treatment processes to ensure a more sustainable use of water resources.

Essentially, a wastewater treatment plant receives and treats municipal and industrial wastewater to remove waste and any coarse debris present in the water; the treatment removes organic and inorganic materials through settling processes, as well as biodegradable organic material dissolved in the water.

According to the Unesco Report of 2017, 80% of the World’s wastewater returns to the ecosystem without being treated or reused.

## Umuhimu wa kufanya ununuzi wa kimkakati

Na Frank Yesaya

**S**hughuli za ununuzi ni muhimu sana katika kufanikisha malengo ya muda mrefu, wa kati na mfupi, ya taasisi nunuzi na serikali kwa ujumla. Ili kufanikisha malengo hayo, shughuli za ununuzi zinatakiwa kufanikisha upatikanaji wa bidhaa, huduma na miundombinu inayohitajika kwa wakati, ubora na gharama sahihi.

Ili shughuli za ununuzi ziweze kutoa mchango sahihi katika kufanikisha shughuli za kila siku na hatimaye kufikia malengo ya muda mfupi, wa kati na mrefu ni lazima zipewe uzito unaostahili katika nafasi za uongozi na mipango ya taasisi au kampuni. Ni lazima kuondoa mtazamo wa kwamba ununuzi na ugavi ni shughuli za kusaidia tu utekelezaji wa shughuli zingine za taasisi badala yake kuzitazama kama shughuli za kimkakati.

Kumekuwapo na maboresho mengi katika shughuli zinazofanikisha utendaji wa mnyororo wa ugavi (supply chain) kama vile utafutaji na usimamizi wa wazabuni (supplier sourcing and management); kununua malighafi, zana na mashine za uzalishaji (procurement of raw materials, equipment and manufacturing machines); utengenezaji wa bidhaa, usambazaji na utunzaji (manufacturing of goods, distribution and warehousing); usimamizi na usafirishaji wa malighafi na bidhaa (material handling and transportation); masoko na usimamizi wa oda za wateja (marketing and order management).

Maboresho hayo yanalenga kuleta ufanisi na tija katika utekelezaji wa shughuli za mnyororo wa ugavi ili kuisadia taasisi/kampuni kupata bidhaa, huduma na miundombinu inayohitajika ili kufikia malengo ya kuwa viongozi katika matumizi ya teknolojia za kisasa, kuongeza ubora wa bidhaa, kufikia masoko mapya, kuhakikisha upatikanaji wa bidhaa sokoni, kupunguza gharama za bidhaa na uendeshaji na

hatimaye kupata faida na kuwashinda washindani wa taasisi/kampuni.

Kampuni kubwa duniani hutumia shughuli za ununuzi na ugavi kama kitendea kazi cha kufikia malengo ya kampuni, kupata bidhaa, huduma na teknolojia bora, kwa wakati, gharama nafuu na pia silaha ya kuwashinda wapinzani wao.

Awali shughuli za ununuzi na ugavi hazikufikiwa kama zinaweza kutoa mchango mkubwa katika kufikia malengo ya makampuni mpaka pale ilipoonekana sehemu kubwa ya matumizi ya makampuni ilienda kwenye ununuzi wa malighafi, mitambo, ofisi, maduka na usambazaji wa bidhaa. Wakati huo ndipo makampuni yakagundua kuwa yanaweza kupata faida nzuri kwa kuongeza ufanisi na kupunguza gharama za ununuzi na ugavi.

Kabla ya kugundua umuhimu wa shughuli za ununuzi na ugavi, maamuzi ya shughuli hizo yalikuwa yanafanywa katika ngazi za chini za makampuni hayo na si katika vikao vya bodi na menejimenti. Pia hapakuwanauwekezajimzurikatikamifumo ya teknolojia ya habari na mawasiliano, maarifa, mbinu, na rasilimali watu na vyote vinavyohusika na ununuzi na ugavi.

Shughuli za ununuzi na ugavi hazikupewa uzito unaostahili hata katika taasisi za serikali, ambapo shughuli hizo zilifanywa pasipokuwa na idara au vitengo rasmi, mafunzo maalumu kutoka vyo rasmi, miongozo rasmi, mipango na watu wenye maarifa sahihi.

Baada ya tafiti mbalimbali ilionekana kuna haja ya kutunga sheria, kanuni na miongozo mbalimbali ya ununuzi na ugavi, pamoja na kuwa na vitengo maalumu vya ununuzi na ugavi, miundo rasmi ya kiutumishi kwa maafisa ununuzi na ugavi, bodi ya kitaaluma na mamlaka ya usimamizi wa ununuzi.

Mabadiliko hayo yote yalilenga kupandisha hadhi ya shughuli za ununuzi na ugavi katika sekta ya umma kutoka shughuli saidizi mpaka za kimkakati.

Mchango wa kimkakati wa shughuli za ununuzi na ugavi unapaswa kuonekana kuanzia ngazi ya taasisi moja moja, wizara na hatimaye nchi kwa ujumla.

Pamoja na kwamba suala la ununuzi wa kimkakati limekuwa likisisitizwa

na viongozi wa serikali na wanazuoni mbalimbali, lakini katika sekta ya umma bado hamna ufahamu sahihi wa ununuzi wa kimkakati unahusisha nini na unafanyikaje.

Ununuzi wa kimkakati ni ununuzi unaofanyika ili kufikia malengo ya muda mrefu ya taasisi au nchi unaonza kwa kutambua mahitaji ya msingi au ya kimkakati; kupata maoni na ridhaa ya wadau muhimu; kupanga na kutekeleza njia, mbinu na mikataba sahihi ya ununuzi; kutafuta wazabuni sahihi na kujenga ushirikiano nao; kutumia mifumo ya kielektoni ya ununuzi na ugavi; kupata thamani ya fedha; kusimamia vihatarishi; kufanya ununuzi endelevu; na kufanya tathmini ya utendaji wa taasisi nunuzi na wazabuni.

**Ununuzi wa kimkakati unahusisha mambo yafuatayo:**

**Utambuzi wa mahitaji ya kimkakati**

Kila taasisi nunuzi inapaswa kuweka mahitaji yao ya ununuzi (procurement needs) katika makundi manne kulingana na mchango wa hitaji katika faida (profit impact) na vihatarishi vya usambazaji (supply risk). **Kundi la kwanza ni la mahitaji ya kimkakati**, mahitaji haya upatikanaji wake ni mgumu (high supply risk) na yana mchango mkubwa (high profit impact) kwenye faida au kufikiwa kwa malengo ya taasisi.

Mahitaji haya hayanunuliwi mara kwa mara, gharama zake za ununuzi ni kubwa, wazabuni wake ni wachache, pengine ni wazalishaji wakubwa, michakato yake ya ununuzi au utekelezaji wa mkataba huchukua muda mrefu. Mfanokwahospitalini mahitaji ya mashine kubwa za kupimia wagonjwa kama CT-SCAN au MRI ambazo hazinunuliwi mara kwa mara, gharama zake za ununuzi ni kubwa na huchukua zaidi ya miezi mitatu kutengenezwa mpaka kusimikwa.

Mfano mwingine kwa viwanda vya uzalishaji ni mitambo na mashine za uzalishaji; kwa sekta ya usafiri wa treni ni vichwa vya treni na mabehewa. Hata mahitaji ya ujenzi wa mifumo, majengo ya ofisi, miundo mbinu kama barabara, mabwawa, njia za reli, vituo vya afya nakadhalika ni mahitaji ya kimkakati.

Mipango ya ununuzi ya mahitaji ya kimkakati inapaswa kuwekwa na kusimamiwa na uongozi wa juu wa nchi/wizara/taasisi; kushirikisha wadau wote muhimu ili kupata utayari na msaada wao; wazabuni wake

## Umuhimu wa kufanya ununuzi...

Inatoka Ukurasa 3

wanapaswa kupatikana baada ya kufanya mchujio wa awali wa sifa zao; wakishapatikana kuna haja ya kuwashirikisha katika kubainisha mahitaji ya taasisi na njia za kuyatimiza, kuwa na uhusiano nao wa muda mrefu kwa manufaa ya pande zote mbili; kuwa na mikataba bora ya ununuzi; na kila upande kutimiza wajibu wake kwa mujibu wa mkataba. Pale inapowezekana ili kupunguza hatari ya kutopata mahitaji haya taasisi nunuzi wanaweza kuweka na kutekeleza mipango ya kujitengenezea.

**Kundi la pili ni la mahitaji saidizi,** mahitaji haya upatikanaji wake si mgumu (low supply risk) na yana mchango mkubwa (high profit impact) kwenye faida au kufikiwa kwa malengo ya taasisi.

Mahitaji haya hununuliwa kwa kiwango kikubwa ingawa si mara kwa mara, gharama zake za ununuzi ni za kati, wazabuni wake ni wengi, michakato yake ya ununuzi au utekelezaji wa mkataba huchukua muda mfupi. Mbinu za kiununuzi zinazofaa kwa mahitaji haya ni pamoja na kununua kwa wingi, kutafuta mbadala wa malighafi au bidhaa na wazabuni, matumizi ya mikataba ya jumla (framework agreements) na katalogi za kimtandao.

**Kundi la tatu ni la mahitaji ya kikwazo,** mahitaji haya upatikanaji wake ni mgumu (high supply risk) na yana mchango mdogo (low profit impact) kwenye faida au kufikiwa kwa malengo ya taasisi.

Mahitaji haya hununuliwa kwa kiwango kikubwa na mara kwa mara, gharama zake za ununuzi ni za kati mpaka kubwa, wazabuni wake ni wachache kwa sababu ya inahitaji mtaji au maarifa makubwa na teknolojia kubwa kuanzisha biashara zake, michakato yake ya ununuzi au utekelezaji wa mkataba huchukua muda mfupi mpaka wa kati. Mbinu za kiununuzi zinazofaa kwa mahitaji haya ni pamoja na kununua kwa wingi kipindi cha mavuno au msimu wa uzalishaji mkubwa, kuwa na makubaliano na wazabuni ya kuhakikisha wataiuzia taasisi nunuzi, kuwajengea uwezo wazabuni waliopo ili waendele kuwa na uwezo wa kuiuzia taasisi nunuzi.

**Kundi la nne ni la mahitaji ya kawaida,** mahitaji haya upatikanaji wake si mgumu (low supply risk) na yana mchango mdogo (low profit impact) kwenye faida au kufikiwa kwa malengo ya taasisi.

Mahitaji haya hununuliwa kwa kiwango kikubwa na mara kwa mara, gharama zake za ununuzi ni ndogo, wazabuni wake ni wengi,

michakato yake ya ununuzi au utekelezaji wa mkataba huchukua muda mfupi. Mbinu za ununuzi zinazofaa kwa mahitaji haya ni pamoja na kununua bidhaa sanifu kwa kiwango kinachohitajika kwa wakati husika, matumizi ya mikataba ya jumla (framework agreements) na katalogi za kimtandao. **Kusaidia utekelezaji wa kazi za msingi na kufikia malengo ya muda mrefu**

Serikali na taasisi zake huwa na malengo ya muda mrefu yanayolenga kupata mafanikio makubwa zaidi katika kazi zao za msingi. Kazi za msingi (core functions) za serikali ni pamoja na kuhakikisha bidhaa, huduma na miundombinu inapatikana ili kuwezesha utoaji wa huduma za kijamii, kiuchumi na kiusalama kwa wananchi wake. Serikali inatekeleza kazi zake za msingi kupitia utekelezaji wa kazi za msingi za wizara/taasisi zake, pale ambapo hospitali inanunua dawa na vifaa tiba na kuvitumia kutoa huduma za afya ndipo hapo serikali inatoa huduma za afya kwa wananchi.

Kwa mtazamo huo pale ambapo taasisi nunuzi inafanya ununuzi wa bidhaa, huduma au miundombinu ya kusaidia utekelezaji wa kazi zake za msingi ndipo inafanya ununuzi wa kimkakati.

Kila taasisi lazima itumie mbinu za kimkakati katika ununuzi wa bidhaa, huduma au miundombinu ya kusaidia utekelezaji wa kazi zake za msingi.

**Ushirikishaji wa wadau**

Ushirikishaji wa wadau wote ni hatua muhimu katika utekelezaji wa ununuzi wa kimkakati, wadau wa ndani ni pamoja na idara zote ndani ya taasisi nunuzi, washirikishwe ili kupata uelewa, utayari na jitihada za pamoja za idara kama za ununuzi uhasibu, ukaguzi, utawala na Tehama katika kuanisha mahitaji na kufanikisha ununuzi, ukaguzi na malipo kwa wakati.

Huwa haipendezi pale ambapo idara tumizi inataka kupata mahitaji yao, na wakati huo kitengo cha ununuzi hakijakamilisha mchakato wa ununuzi, au pale ambapo hatua moja ya ujenzi imekamilika na kuhakikiwa lakini mkandarasi amegoma kuendelea na kazi kwa sababu hajalipwa ili hali fedha zipo. Matatizo kama haya yanaashiria ushirikiano mbovu wa idara ndani ya taasisi ambao inawezekana umesababishwa na idara husika kutoshirikishwa kwa kila hatua za utekelezaji wa ununuzi.

Itaendele .....
