The value of awarded tenders in shillings, processed through NeST, up to February 7, 2024. The system can be accessed through nest.go.tz

By Joseph Muhozi, Arusha

Minister of State in the President's Office (Public Service Management and Good Governance), George Simbachawene, has called on public officers to refrain from avoiding use of Government's information and communication technology (ICT) systems that are meant to enhance efficiency in serving wananchi, TPJ can report.

The minister's call was in the remarks he made on 7th Feb 2024 in Arusha during the opening of the 4th e-Government Annual Meeting organized by the e-Government Authority (eGA). Simbachawene said he was concerned that some government officials appear bent on resisting the government's desire of utilizing ICT systems to improve accountability and transparency in public service delivery by dubiously citing network or system malfunctions which can easily be corrected. Minister Simbachawene acknowledged that there were some instances when officials, especially those stationed in remote areas, did experience internet blackout at times but directed his frustration towards those who maliciously seemed to take delight at the slightest failure as if to belittle the significant investment the Government

has made in the technology.

"Some public servants simply refuse to use the systems. So, even if there is a minor internet failure, they gleefully go about proclaiming that the system is not functioning," said Simbachawene.

The minister said as the Government has done much by building infrastructure such as the National ICT Broadband Backbone, which is operated by the Tanzania Telecommunications Company Ltd, to ensure that ICT systems can be put to use throughout the country, there was a need to take legal action against those deliberately avoiding to use established systems.

Additionally, he highlighted President Samia Suluhu Hassan's commitment to ensuring effective utilization of information and communications technology as per the 2016 National ICT Policy, saying public institutions should capitalize on ICT opportunities to improve

performance in service delivery.

"Colleagues, we have no option but to embrace technology in public institutions and to collaborate effectively in enforcing the relevant laws, including the e-Government Act, to make this possible," stated Simbachawene.

He also urged leaders of government institutions to actively adhere to President Samia's directive to ensure the integration of government systems and cautioned against those who hinder the integration of their systems with others.

Simbachawene's directives echo instructions regarding use of NeST, where government institutions are instructed to ensure that every public tender is processed through the system, with fines and jail terms awaiting those who will not adhere to the requirement.

The four-day meeting was attended by staff from various government institutions, including the Public Procurement Regulatory Authority which also provided customer service on NeST.

Makala

Na Frank Yesaya

Makala ya leo ni mwendelezo wa Makala iliyochapishwa katika toleo la 05 la tarehe 31 Januari 2024

Mahitaji ya miradi

Kwa mahitaji ya ununuzi wa miradi kwa mfano ya ujenzi ambayo mikataba yake itatekelezwa kwa zaidi ya mwaka mmoja, lakini ununuzi wa mzabuni utafanyika katika mwaka mmoja wa fedha, ni lazima kujumuisha katika hitaji la ununuzi bajeti yote ya utekelezaji wa mradi kwa miaka yote ya utekelezaji hata kama bajeti imetengwa kidogo kidogo.

Ni muhimu kuzingatia kuwa kama bajeti nzima inahusisha ujenzi na usimamizi, basi bajeti ya ujenzi ionekane katika hitaji la ujenzi na litengenezwe hitaji lingine la ushauri elekezi litakalobeba bajeti ya ushauri elekezi. Mahitaji ya ukusanyaji mapato, ukodishaji na uondoshaji mali

Ili kuwezesha kitengo cha ununuzi kuchakata zabuni za ukusanyaji mapato, ukodishaji na uondoshaji wa mali, idara zinazohusika na mahitaji husika zinapaswa kujumuisha katika bajeti zake za makusanyo makadirio ya chini yanayotegemewa kupatikana kutoka katika kila shughuli ya ukusanyaji mapato, ukodishaji au uondoshaji mali.

Kwa hiyo kwenye sehemu

Mambo ya Kuzingatia katika Utekelezaji wa Michakato ya Ununuzi katika mfumo wa NeST - 3

ya gharama, idara tumizi anapaswa kuonyesha jumla ya makadirio ya makusanyo yanayotegemewa kupatikana kwa kipindi chote cha utekelezaji na siyo kuweka sifuri au gharama ya kumlipa mtoa huduma.

Makadiro hayo ndiyo yatakayosaidia katika kufanya maamuzi ya mzabuni wa kushinda zabuni husika, maana yake ni kuwa wazabuni watakaopendekeza bei ambazo ziko chini ya makadirio ya idara tumizi watakuwa hawafai kuchaguliwa.

Mahitaji yanayotolewa na taasisi za serikali

Kwa mahitaji ya viandikia, mafuta na huduma za matengenezo ya magari ambayo yanaweza kutimizwa na taasisi zingine za serikali pasipo kutangaza zabuni, idara tumizi wanaweza kuwasilisha mahitaji hayo kwenye mfumo wa NeST. Hata hivyo mahitaji hayo yatanunuliwa kwa mujibu wa taratibu zilizowekwa na taasisi husika mpaka pale utaratibu wa kununua mahitaji hayo kupitia NeST utakapokuwa tayari.

Uwasilishaji wa mahitaji kwenda PMU

Kabla ya Mkuu au Afisa wa Idara tumizi kupandisha mahitaji kwenye mfumo, wanapaswa kukubaliana kama idara juu ya usahihi wa mahitaji hayo. Mahitaji hayo yakipandishwa na yoyote katika hao, yatafika PMU moja kwa moja hayahitaji idhini ya mkuu wa idara. Mtumiaji wa idara tumizi anaweza kufanya maboresho au kuongeza mahitaji mengine

kwenye mfumo pasipo kupakua kiolezo kingine. Mfumo unaruhusu kufanya maboresho kwa mahitaji ambayo bado hayajajumuishwa kwenye zabuni.

Katika mazingira ambayo watumishi wa idara tumizi hawezi kuingiza mahitaji yao kwenye mfumo, maafisa na mkuu wa PMU wanaweza kuingiza mahitaji hayo kwa niaba ya idara tumizi, lakini ni muhimu kufanya hivyo baada ya kupata ridhaa na mahitaji halisi kutoka kwa wahusika.

Uchambuzi wa mahitaji ya ununuzi na PMU

Baada ya idara tumizi kuwasilisha mahitaji yao katika mfumo, kinachotazamiwa ni kitengo cha PMU kuanza kutengeneza zabuni mbalimbali kwa ajili ya kuwezesha ununuzi wa mahitaji. Hata hivyo, kabla ya kuanza kufanya kazi hiyo, ni muhimu sana kitengo cha ununuzi kupitia mahitaji yote ya idara tumizi ili kuyaelewa vizuri.

Chakula na software

Kwa kawaida hitaji la ununuzi wa chakula au software lipo katika kategoria ya bidhaa, lakini kulingana na namna hitaji hilo litakavyonunuliwa linaweza kubadilika na kuwa ni huduma. Kwa mfano, tunapoenda kununua chakula kwa ajili ya kikao, na chakula hicho kitanunuliwa kutoka katika ofisi za mtoa huduma kisha kikaletwa ofisini kimefungwa katika vifurushi na watumishi wakapewa kula pasipo uwepo wa mtoa huduma hapo tunanunua bidhaa, lakini iwapo mtoa huduma atahitajika afike na chakula na kisha kuwahudumia watumishi, hapo tutakuwa tunanunua huduma.

Aidha, tunaponunua software

Mambo ya Kuzingatia katika...

Inatoka Ukurasa 3

ambayo tayari imeshatengenezwa tunanunua bidhaa, lakini tunapohitaji mtaalamu wa kutengeneza software tunamnunua mtoa huduma ya ushauri elekezi. Aidha, tunapohitaji mtu wa kusimika software katika vifaa vya ofisi tunanunua huduma isiyo ya ushauri elekezi.

Ukarabati na matengenezo

Hitaji lingine ambalo ni gumu kuliweka katika kundi sahihi la mahitaji ya ununuzi mpaka ujue litakavyotekelezwa ni hitaji la ukarabati na matengenezo (repair and maintenance). Kwa hitaji hili ni muhimu kila idara tumizi kueleza kwa uwazi ni kitu gani kinachotakiwa kukarabatiwa na kutengenezwa; mfano ukarabati na utengenezaji wa vifaa vya TEHAMA, magari na majengo, vyote ni ukarabati na matengenezo, lakini utekelezaji wake hufanywa na wazabuni tofauti.

Ukarabati wa vifaa vya TEHAMA utahitaji fundi atakayenunuliwa kama mtoa huduma zisizo za ushauri elekezi, ilihali magari yatakarabatiwa na kutengenezwa na mtoa huduma wa serikali TEMESA, na ukarabati na matengenezo madogo ya majengo yanaweza kufanywa kama huduma zisizo za ushauri elekezi wakati ukarabati na matengenezo makubwa yanaweza kufanywa na mkandarasi katika kundi la kazi za ujenzi.

Huduma za chakula na ukumbi

Mahitaji mengine ya kuangaliwa kwa umakini, ni mahitaji ya huduma za chakula zinazohitajika katika shughuli mbalimbali za taasisi; kuna huduma zinazohitajika sehemu moja kwa mwaka mzima, kuna huduma za kuendesha migahawa ya taasisi, kuna huduma za chakula kwa ajili ya vikao, mikutano au matukio yanayofanyika kila

mwezi, robo mwaka au mara moja kwa mwaka katika eneo moja au mikoa tofauti.

Iwapo mahitaji yote ya huduma ya chakula kutoka idara mbalimbali yatajumuishwa kwenye zabuni moja wakati utekelezaji wake ni tofauti, kuna uwezekano wa kushindwa kupata huduma hiyo kwa baadhi ya shughuli.

Hivyo, kabla ya kutengeneza zabuni ya huduma ya chakula ni muhimu sana kuchambua mahitaji ya huduma hiyo kutoka idara mbalimbali, ili kutambua mahitaji yatakayojirudia, ya mara moja, yanayofanyika sehemu moja au tofauti na iwapo yanaweza kupatikana kwa njia za ushindani au zisizo za ushindani. Baada ya kufanya uchambuzi huo, kitengo cha ununuzi kinaweza kutengeneza zabuni: - za framework ya chakula kwa ajili ya huduma za chakula zitakazohitajika kwa kujirudia, kama huduma hizo zitahitajika kwa ajili ya mikutano/vikao vitakavyofanyika katika mikoa tofauti ni vizuri zabuni hiyo ikawa na lot za kimikoa; aidha kutengeneza zabuni ya huduma ya uendeshaji wa mgahawa iwapo taasisi ina mgahawa; na pia kuona uwezekano wa kuwa na zabuni zingine za ushindani au zisizo za ushindani zitakazojumuisha mahitaji ya huduma ya chakula kwa vikao/mikutano maalumu yenye upekee katika uendeshaji wake.

Aidha, kwa ajili ya ufanisi wa vikao/mikutano maalumu, kitengo cha ununuzi kinaweza kutengeneza zabuni ya huduma za ukumbi itakayojumuisha utoaji wa chakula ndani yake. Hata hivyo, kuna uwezekano wa kupata huduma hizo kutoka taasisi za serikali ambazo zinatoa huduma za ukumbi na chakula.

Mashine za ofisini na Tehama

MAKALA

Mambo ya Kuzingatia katika utekelezaji...**Inatoka Ukurasa 4**

Hitaji lingine la kuwa nalo makini ni hitaji la mashine/vifaa vya ofisini na vifaa vya Tehama, mfano wa mashine/vifaa vya ofisini ni photocopier, printers, scanners, shredders, binders, punching equipment, staplers, file trays, calculators, cash counters. Katika vifaa hivyo vitu kama shredders, binders, staplers siyo vifaa vya Tehama, hivyo siyo sawa vikajumuishwa katika zabuni ya vifaa vya Tehama; lakini vifaa kama photocopier, printers, scanners vinaweza kujumuisha katika zabuni ya vifaa vya Tehama, ingawa wakati wa uanzishaji wa ununuzi ni vizuri visijumuishe pamoja na vifaa vingine vya Tehama kama laptops au security cameras. Ni vizuri kutengeneza loti tofauti kwa ajili ya vifaa hivyo kwa sababu siyo kila mara wazabuni wa

laptops watakuwa ni wazabuni wa photocopiers au security cameras.

Dawa na vifaa tiba

Mtazamo huo ni muhimu ukatumika pia katika kupanga na kutekeleza ununuzi wa madawa na vifaa tiba, kwa kawaida siyo rahisi kwa mzabuni mmoja kuweza kusambaza aina nyingi za madawa, na pia siyo rahisi mzabuni wa madawa kuwa pia ni msambaza vifaa tiba. Hivyo inawezekana kutengeneza zabuni tofauti za madawa kulingana na aina ya madawa yanayohitajika, au kutengeneza loti tofauti ndani ya zabuni moja ya madawa (ikiwezekana dawa moja iwe loti moja) ili kuwawezesha wazabuni kuomba dawa wanazoweza kusambaza tu. Aidha, utaratibu huo unaweza kutumika kwa upande wa vifaa tiba pia.

Kazi za ujenzi

Kwa upande wa mahitaji ya kazi za ujenzi, ni vizuri kuyachambua na kuhakikisha kuwa mahitaji yanayojumuishwa kwenye zabuni moja ni mahitaji yanayofanana, na yanaweza kutekelezwa kwa kutumia BOQ moja na mkataba mmoja au kuwekwa kwenye loti kadhaa za zabuni moja wakati wa uanzishaji wa zabuni na idara tumizi.

Kwa mifano hiyo tunajifunza kuwa wakati wa uandaaji wa bajeti na baada ya PMU kupokea mahitaji ya ununuzi kutoka idara tumizi ni muhimu sana kuyachambua kabla ya kuyajumuisha katika zabuni husika. Aidha, ni muhimu kupata picha ya mchakato mzima wa ununuzi kwa kila njia unayotaka kuichagua kutimiza hitaji husika ili kuona kama itamuwezesha idara tumizi kupata hitaji husika katika muda na mazingira tarajiwa.
